GENERAL NEWS

The Iowa State College celebrated the 90th anniversary of its founding on March 22, 1948. The occasion was marked by the presentation of outstanding leaders in the fields of scientific and education activity. Among the speakers was Dr. Wm. H. Feldman of the Mayo Foundation for Medical Education and Research, Rochester, Minn. His subject was: "Veterinary Medicine: Guardian of Human and Animal Health." Dr. Leslie M. Hurt (ISC '04), president-elect of the AVMA,

Los Angeles, Calif., spoke at the evening banquet as a representative of the alumni of the Division of Veterinary Medicine.

Dr. I. F. Huddleson, head of the Brucellosis laboratory at Michigan State College, spoke to the Society of Sigma Xi, April 27, 1948, on recent advances in brucellosis immunization. On April 28, 1948, he spoke to the Sophomore and Junior classes on the same subject.

Dr. H. A. Smith, Department of Veterinary Pathology, returned to resume teaching duties March 28, 1948. He had been studying diseases of the kidney in cooperation with the medical school at the University of Michigan.

Dr. W. O. Nelson, Department of Anatomy, State University of Iowa, and his colleagues, visited the Veterinary Division, and the Department of Anatomy, May 3, 1948.

Dr. H. L. Foust, head of the Department of Anatomy, attended the meeting of the American Association of Anatomists at the University of Wisconsin, Madison, Wis., April 22, 23, and 24, 1948. Other members of the Anatomy staff attending the meeting were Dr. R. Getty, Dr. F. K. Ramsey, and Dr. H. J. Ruebke.

The Iowa Branch of the Society for Experimental Biology and Medicine met May 3, 1948 in the Memorial Union. A dinner followed by presentation of papers highlighted the meeting.

Dr. E. A. Hewitt, Department of Veterinary Physiology and Pharmacology, presented a movie on rumen gastric fistulae to the Jewell, Iowa, Kiwanis Club on May 3, 1948.

Dr. D. A. Smith, of the Department of Veterinary Medicine, attended the annual meeting of the American Animal Hospital Association at the Atlanta-Biltmore Hotel, Atlanta, Georgia, April 19-22, 1948.

Dr. E. A. Benbrook, head of the Department of Veterinary Pathology, attended the meeting of the Michigan State A.V.M.A. held June 17 and 18.

Dr. I. A. Merchant, head of the Department of Veterinary Hygiene, attended the annual meeting of the Society of Bacteriologists at Minneapolis, Minn., May 11, 12, 13, and 14. Dr. R. A. Packer, Department of Veterinary Hygiene, presented a paper entitled "Proteus Ammoniae Infections in Animals" at this meeting. Dr. E. H. Coles, Department of Veterinary Hygiene, presented a paper entitled "Identification of *Staphylococcus aureus* of Canine Origin" at this same meeting.

Dr. D. A. Smith, of the Department of Veterinary Medicine, will present a paper entitled "The Clinical Aspects of Canine Leptospirosis" at the Midwest Veterinary Conference to be held June 29 to July 1 at Kansas City, Mo.

Dr. L. H. Schwarte, of the Veterinary Research Institute staff, presented a paper on the use of radioactive isotopes in medicine at the May meeting of the Iowa Academy of Science, Parsons College, Fairfield, Iowa. He also addressed the Dental Society of Des Moines on the same subject.

Dr. M. S. Hofstad, of the Veterinary Research staff, presented a paper on new-castle disease and other respiratory infections of poultry at the April meeting of the Eastern Iowa Veterinary Medical Association held in Cedar Rapids, Iowa. He also addressed the Osborne Research Club on the same subject on May 10, 1948 at the regular meeting held here on the campus.

No doubt about it, Thomas—

More and more, "doubting Thomases" are becoming convinced of B-T-V's advantages in controlling cholera. They're proving to themselves that B-T-V—because it eliminates live virus—is the easiest, safest and most effective control in use today.

EASIEST—because B-T-V lets you vaccinate any time, all or part of a herd. There's no vaccination stunting and no post-vaccination flareups.

SAFEST—because with Cutter B-T-V, there's no danger of contaminating premises, no chance of virus breaks.

MOST EFFECTIVE—because hogs vaccinated with B-T-V stay on full feed, gain faster, reach market sooner.

If you've been a "doubting Thomas" why not try Cutter B-T-V. The real proof of the vaccine is in the using.
